Title: A SECURE AND LOW RESOURCE CONSUMPTION DATA SHARING SCHEME IN MOBILE CLOUD COMPUTING

Project Description: Adaptive Privacy Policy Prediction (A3P) system that helps users

automate the privacy policy settings for their uploaded images. The A3P system provide comprehensive framework to infer privacy preferences based on the information available for a given user. I also effectively tackled the issue of cold start, leveraging social context information. Our experimental study proves that our A3P is a practical tool that offers significant improvements over current approaches to privacy.
